U.S. Patent and Trademark Office PTOL-326 (Rev. 1-04) Application/Control Number: 10/049,333

Art Unit: 1712

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/10/04 has been entered.

- 2. Applicants have amended the previously pending claims such that they include limitations that were previously held to be allowable over the prior art. Claims 16 to 19, 21, 22, 36, 37, 39 to 41 and 44 are allowed. These claims are drawn to a silicone rubber powder obtained by irradiating a silicone oil latex (or a process of making the rubber powder) and require a specific gel content. Such a powder is characterized as having crosslinked linear siloxane chains and can be distinguished from silicone powders containing "T" or "Q" units (not found in silicone oils). However a new ground of rejection has come to the Examiner's attention regarding many of the claims. In addition newly added claims 48 and 50 fail to contain any of the limitations previously indicated as being allowable over the prior art. These claims are rejected, as seen below.
- 3. Claims 23 to 28, 31 to 35, 42 to 50 and 52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is confusing what is intended by the term "crosslinking agent". Specifically, a monofunctional "crosslinking agent" would not, in fact, appear to chemically crosslink due to its monofunctional nature. Clarification is required.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

⁽b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Application/Control Number: 10/049,333

Art Unit: 1712

5. Claims 48 and 50 are rejected under 35 U.S.C. 102(b) as being anticipated by Ziemelis (4,370,160, cited in the previous office action).

Claim 48 is drawn to a process wherein a starting material consisting of a specific silicone oil latex is vulcanized with irradiation in the presence of a crosslinking agent and subsequently dried. Claim 50 specifies that UV rays are operable in this process. Ziemelis teaches a process for preparing silicone microparticles in which liquid siloxanes are dispersed in an aqueous phase (forming a silicon oil latex), crosslinked by UV radiation and dried. For instance, in Example 1, a dimethylsiloxane fluid and a cyclomethylvinylsiloxane (which is a crosslinking agent for the dimethylsiloxane fluid) are dispersed in water, UV cured and dried. This anticipates the instant claims.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (571) 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
